Figure 1 shows various map symbols and their corresponding labels. The symbols are arranged in two rows. The first row includes: Highway (solid line), Secondary Road (dashed line), Jeep Trail/Wake/Water (dotted line), Railroad (line with cross-ticks), Pipe/Power Line (line with cross-ticks), Ridge/Physical Feature (line with small triangles), Property/Fence Line (line with small squares), Nonvisible Boundary (dashed line), Stream/Shortline (wavy line), Intermittent Stream (dashed wavy line), River (thick wavy line), and Glacier (wavy line with small triangles). The second row includes: Military (blue dots), Inset (gray box with 'Inset' text), and Out Area (gray box with 'Out Area' text).

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest ranking of these boundaries.

- 1 A '...' following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- 2 In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- 3 A '\*' following a block number indicates that the block number is repeated elsewhere in the block.
